

The Garden Organics Garden Blitz program is designed to promote the community benefits of the introduction of Your Garden Organics service.

Three (3) projects will be short listed from each LGA from the applications received for a follow up site visit to discuss your project in more detail before making final selections.

There will be one (1) project delivered in each council area (Cessnock, Maitland, Singleton)

Our landscape designer will work with each successful applicant to design your garden. The Garden Blitz team will then come to your site and provide the labour of 2 people for a day, soil and plants, garden bed construction, seating and simple paving up to the value of \$4000 per site. (The project will not include the construction of buildings such as sheds, gazebos pergolas or decks). You could also provide volunteer labour to help on the day.

Keep your application simple and your project achievable – (it must be completed in an 8 hour day)!

Be sure to provide 3-5 photos of your site from different angles. You may like to send us a short video to support your application..

Sites must be accessible and completed between September – November 2018.

Before and after photos and a short video will be produced for promotional use by council. To top it off a media launch, attended by the local mayor for unveiling of the Garden Organics Garden Blitz signage will be conducted at your site (funded by the project).

Applications close 20th July 2018 and the successful candidates will be announced 16th August 2018.

If you have any questions about the project or your application please call Leanne Sanderson - Garden Organics Education Officer on 0432 903 731 or send an email to yourorganicsbin@solo.com.au.

* 1. I have read and accept the terms and conditions.

Yes

No

* 2. Contact details
